

## CPCE “2+2” Articulation Pathways

The [Table 1](#) below shows the mapping between HKCC and SPEED programmes.

### Foundation Subject Requirements

Some PolyU-SPEED award programmes require students who do not have prior knowledge on specific subject areas to complete relevant foundation subject(s) on top of the basic programme requirements after admission. The foundation subject requirements of PolyU-SPEED award programmes, if any, together with the mapping of HKCC subjects with SPEED foundation subjects are also specified in the [Table 1](#). HKCC students may plan ahead their studies if they wish to articulate to SPEED programmes.

Foundation subjects of PolyU-SPEED award programmes are normally offered for the students concerned during their first year of study in SPEED. Students who are required to take foundation subject(s) and wish to complete all the programme requirements within the normal duration of study (i.e. 2 years for full-time study and 4 years for part-time study) will need to take additional study load in certain semester(s). Students, on admission to SPEED, will be provided with the recommended study patterns which can facilitate them to complete the programme requirements within the normal duration of study.

### Credit Transfer Arrangements

The PolyU-SPEED award programmes are articulation degree programmes. Students normally will not be given credit transfer for any required Cluster-Area Requirements (CAR) and Service-Learning subjects under General University Requirements (GUR), and they must complete at least 60 credits to be eligible for the award. A few PolyU-SPEED award programmes which have basic requirements of over 60 credits, however, may grant credit transfer to students who have completed comparable HKCC subjects, subject to meeting the other credit transfer requirements of the specific programmes as well as the academic regulations of the School. There are possibilities of credit transfer for some compulsory subjects under *BSc (Hons) in Building Engineering and Management* and *BBA (Hons) in Accountancy*. Please refer to [Table 2](#) on the last page for the details.

### Remark:

*The offering of any programmes stated below is subject to annual review. There may be revamp, re-development and phasing out of programmes from time to time. At the same time, SPEED may develop new programmes as appropriate in response to community needs.*
